

### Appendix I: Projects involved in cheetah conservation in South Africa

<b>PROJECT</b>	<b>ORGANISATION</b>	<b>CONTACT NAME</b>	<b>E-MAIL</b>	<b>PROJECT DESCRIPTION</b>
Anatolian Guard Dog Trial	Cheetah Outreach / De Wildt Wild Cheetah Project	Annie Beckhelling	cheetah@intekom.co.za	Using Anatolian guard dogs as non-lethal predator control
BioBank SA	Various Biological Resource Banks	Paul Bartels	paulb@wbrc.org.za	Biological resource banking
Cango Wildlife Ranch Cheetah Ambassador Programme	Cango Wildlife Ranch	Rob Hall	robhall@kingsley.co.za	Outreach education project
Cheetah Outreach Ambassador Programme	Cheetah Outreach	Annie Beckhelling	cheetah@intekom.co.za	Outreach education project using ambassador cats, teacher training, curriculum development
De Wildt Outreach Education Programme	De Wildt Cheetah and Wildlife Trust	Marilyn Hull	education@dewildt.org.za	Education outreach using ambassador cats, teacher training, curriculum development
De Wildt Wild Cheetah Project	De Wildt Cheetah and Wildlife Trust	Deon Cilliers	ncmp@dewildt.org.za	Focuses on cheetahs occurring outside conservation areas: conflict resolution, research, education, relocations.
EWT/NCT Jubatus Cheetah Project	Endangered Wildlife Trust, Carnivore Conservation Group,	Brenda de Wit	brendadew@ewt.org.za	Investigate whether cheetah prey species and other resident

	and the Nature Conservation Trust			carnivores employ different behavioural and physiological responses to changing predation pressure experienced when (i) cheetahs are reintroduced to the reserve and (ii) internal fences are opened to increase the area available
Kgalagadi Cheetah Project	Tony And Lisette Lewis Foundation South Africa and SANParks	Gus Mills	gusm@sanparks.org.za	Behavioural ecology and conservation biology of the cheetah in the Kgalagadi Transfrontier Park
Kwandwe cheetah project	Kwandwe Private Reserve	Charlene Bisset / Angus Sholto-Douglas	angus@kwandwe.co.za	Reintroduction biology
National genetic database (DNA profiling)	University of the Free State, University of Limpopo National Zoological Gardens, De Wildt Cheetah and Wildlife Trust	Antoinette Kotze	Antoinette@zoo.ac.za	Microsatellite genotyping with 16 markers for wild and captive animals for the national genetic database
NCCF-SA (National Cheetah Conservation Forum of South Africa)	Various	Kelly Marnewick (Secretariat)	wcmp@dewildt.org.za	Advisory forum consisting of conservationists, landowners, government officials, hunters, etc for all matters concerning cheetahs in South Africa.

NCCF-SA - Captive Breeding Sub committee	Various	Rob Hall (Chair)	robhall@kingsley.co.za	Committee addressing all matters concerning captive breeding
NCCF-SA - Education Sub Committee	Various	Annie Beckhelling (Chair)	cheetah@intekom.co.za	Committee addressing all matters concerning education outreach and ambassador programmes
NCCF-SA - Gene Flow sub Committee	Various	Vanessa Bouwer (Chair)	cheetah@dewildt.org.za	Committee addressing all matters concerning genetics and formation of a stud book
NCCF-SA - Relocation Sub Committee	Various	Deon Cilliers (Chair)	ncmp@dewildt.org.za	Committee addressing all matters concerning relocation of cheetahs through the NCCF-SA
Onderstepoort Genetics Laboratory Cheetah Genetics Project	University of Pretoria, Faculty of Veterinary Science / De Wildt Cheetah and Wildlife Trust	Student: Sasi Sasidharan  Supervisor: Alan Guthrie	soorya.sasi@tuks.co.za  alan.guthrie@up.ac.za	Investigates fitness correlations with genomic diversity in captive cheetah populations, with specific investigation of the king phenotype and investigates and compares different captive and wild-caught population parameters and multiple veterinary aspects within the breeding colony.
Scatology as a non-	University of Pretoria / De Wildt	Student: Kiersten	kiersty_h@yahoo.com	Investigating molecular scatology

invasive conservation tool for the cheetah in South Africa	Cheetah and Wildlife Trust	Herring Supervisor: Esté van Marle-Köster	evm.koster@up.ac.	as a non-invasive tool for the conservation of cheetah
Shashe-Limpopo Predator Research Group (SLPRG)	Various	Warwick Davies-Mostert (Co-ordinator)	warwick.mostert@debeersgroup.com	Group of researchers focussing on predators in the confluence of the Shashe and Limpopo rivers where South Africa, Botswana and Zimbabwe meet
Veterinary research projects	Various	Emily Lane	Emily@zoo.ac.za	Various projects by several researchers on many topics.
Moholoholo Education Programme	Moholoholo	Brian Jones	moholoholorehab@wol.co.za	Education using ambassador cats
