

Laneng L. A., Ilstedt U., Yasuyuki T. & Vairappan C. S. 2019. First record of five Bornean Felidae in INIKEA forest rehabilitation project area, Malaysia. *Cat News* 70, 28–31. Supporting Online Material.

SOM T1. IUCN Red List status of five Bornean felids, the number of independent photographs of each species recorded and the elevation range of the records in INIKEA. (IUCN 2018).

Species	Elevation range (m)	Nbr. of independent photographs
Leopard cat	326	17
Bay cat	120–331	13
Marbled cat	123–331	7
Sunda clouded leopard	121– 326	6
Flat-headed cat	148– 298	2

SOM T2. The details of camera trap stations where the occurrence of five Bornean Felidae in INIKEA Forest Rehabilitation Project has been detected.

Camera ID	Species	Habitat	Elevation (m)
LA052	Flat-headed cat <i>Prionailurus planiceps</i>	Dried stream near to abandoned logging road covered by tall grass, 1.67 km nearest distance to main river, under dense canopy cover with lianas.	326
LA003	Leopard cat <i>Prionailurus bengalensis</i>	On dried stream and near to small pond	120
LA005		Game trails, fallen trees	193
LA010		Near to small stream, fallen logs, plenty of small vegetation cover on forest floor.	168
LA011		On logging road, open area.	206
LA013		On game trails.	164
LA021		Near to stream and logging road, presence of fallen logs and plenty of lianas.	121
LA025		Near to ficus tree and game trail.	265
LA040		Open space under dense canopy,	130
LA048		Game trail with 10° slope	292
LA052		Dried stream near to abandoned logging road covered by tall grass, 1.67 km nearest distance to main river, under dense canopy cover with lianas.	331
LA062		Game trail, 400 m from river, plenty of lianas.	184
LA019		Fallen logs, 15° slope area, thick leaf litter	176
LA022		300 m near to the river and slope area approximately 10°.	136
LA041		Near to ficus tree and game trail. Open space under canopy, Argus pheasant dancing ground, near to stream.	121
LA057		Plenty of lianas and ground vegetation, near to dried stream.	326
LA071		Game trail, 90 m from river, fallen log	166

LA006	Marbled Cat <i>Pardofelis marmorata</i>	On logging road, tall grasses.	123
LA010		Near to small stream, fallen logs, plenty of small vegetation cover on forest floor.	168
LA022		300 m near to the river and slope area approximately 10°.	136
LA028		Dried stream, present of pig wallow, plenty of liana, open canopy.	144
LA049		Skid trail, on ridge, fallen logs.	326
LA052		Dried stream near to abandoned logging road covered by tall grass, 1.67 km nearest distance to main river, under dense canopy cover with lianas.	331
LA057		Plenty of lianas and ground vegetation, near to dried stream.	326
LA073		Game trail, fallen logs.	223
LA019	Bay cat <i>Catopuma badia</i>	Fallen logs, 15° slope area, thick leaf litter	176
LA022		300 m near to the river and slope area approximately 10°.	136
LA041		Open space under canopy, Argus pheasant dancing ground, near to stream.	121
LA057		Plenty of lianas and ground vegetation, near to dried stream.	326
LA062		Game trail, 400 m from river, plenty of lianas.	148
LA071		Game trail, 90 m from river, fallen log	166
LA001	Sunda clouded leopard <i>Neofelis diardi</i>	On ridge, skid trail, open area, ground cover by grasses.	
LA023		Open space under canopy an old clearing used to store logs, fallen logs.	148
LA026		Game trail, near to forest edge, 2 km from main road.	298
LA037		Game trails.	186
